

Training Advantage Scheme

Professional Competence Development Through World Class Training

In this tough economic climate, we appreciate that our clients need to get the most value from their annual training budget without compromising on quality. The **Baines Simmons Training Advantage Scheme** enables you to develop the competence of your staff with industry-leading safety and regulatory training expertise while reducing your per capita spend by up to 25%.

Why join the Baines Simmons Training Advantage Scheme?

- ▶ Enjoy substantial preferential rates on high quality training delivered by expert training consultants.
- ▶ Gain access to honest, expert advice that supports you with organisational change, improved compliance and risk reduction.
- ▶ Reduce the 'operational' impact of in-company training to your business, by releasing manageable numbers you can control.
- ▶ Improve your organisation's compliance and reduce your risk profile to achieve greater competitive advantage and improved business performance.
- ▶ Spread your training budget throughout the year for a known preferential rate.
- ▶ Benefit from our full delegate support system. Simply register online or call our Open Training support team and we will handle the rest.

How the Training Advantage Scheme works

The scheme offers price driven benefits that increase along with your investment:

Tier	Planned investment per annum	Savings on list price
Passport	£2 - 5K	5%
Bronze	£5 - 15K	10%
Silver	£15 - 25K	15%
Gold	£25 - 35K	20%
Platinum	£35K +	25%

Additional Training Advantage Scheme Privileges*

- ▶ Access to Baines Simmons account management support
- ▶ Invite to attend our annual members webinar/workshop - for feedback and collaborative course development
- ▶ Exclusive rates offered on our Consolidated guide to European aviation rules ("little blue book")
- ▶ 1 hour free of charge Q&A consulting access to our Subject Matter Experts
- ▶ Exclusive attendee rates for our annual European Safety Symposium

*Bronze tier upward

About Baines Simmons

Baines Simmons offers world class aviation safety consultancy. We are change catalysts in safety management, regulatory issues and business efficiency.

Our consultants use their unrivalled experience and expertise to bring fresh insights, innovative approaches and new skills that result in sustainable improvements in response to the ever-increasing complexity of aviation safety.

Baines Simmons is a trusted partner to more than 350 leading aviation organisations across 40 countries; we have trained over 70,000 professionals and serviced 30 National Regulatory Authorities.

- ▶ We are currently the single largest supplier of Safety and Error Management training to EASA.
- ▶ We don't just give you trainers, we give you experienced Training Consultants, industry specialists who will have been with world-leading clients the week before delivering training.
- ▶ Our training programmes are second to none. Our philosophy is entirely focussed on the development of competence.
- ▶ We deliver unparalleled world-class learning experiences derived from extensive experience gained from consulting with clients, investment in our Training Consultants and researching best practice developments from around the globe.

Client Testimonial

"When the Training Advantage Scheme was introduced the decision to join and take advantage of the opportunity to reduce training costs without compromising on quality was an easy one for us to make."

Laurie Thompson, Quality Manager - PremiAir Aircraft Engineering Ltd
