2. What will our service do for you?

“Develop and design the best solutions to fit your environment ”

We will lead your organisation through an efficient approval process to:-

- ▶ Define a clear understanding of the relevant requirements
- ▶ Design appropriate Management and Technical processes
- ▶ Build a simple, workable procedures document
- ▶ Develop a management team competent in regulatory terms
- ▶ Establish an effective quality system

3. How will you benefit?

“Project leadership, workable solutions and successful outcomes ”

Baines Simmons consultants will lead and manage your approval preparation from start to finish, freeing you up to focus on managing your business and commercial challenges.

- ▶ We enable you to focus on what you do well, whilst we handle what we do well
- ▶ We introduce expert, highly impartial and objective perspectives
- ▶ We take a highly practical and dynamic approach - professionally balancing commercial, regulatory and safety objectives
- ▶ We will secure your approval grant or variation to budget and on time in combination with your project commitment

2 Approval Services

4. Our approach

“We operate a pragmatic style - we will work with you at your pace or lead the process ”

Baines Simmons operates to relieve you of the considerable effort and commitment required to achieve regulatory approval. We are committed and focussed on building organisational competence to the satisfaction of the Competent Authority.

We will gain a full understanding of your business objectives, target dates and pre-existent organisation structure in order to agree an approval project plan that will identify staged deliverables to meet an ultimate approval target date.

Our clearly defined phased approach will ensure the development of organisation competence and the generation of processes meeting the regulatory requirements in a practical and cost-effective manner.

5. Why choose us?

“Professional people and professional solutions:”

- ▶ Up-to-date regulatory knowledge and expertise procedures
- ▶ Access to readily available specialist resources
- ▶ Intellectual and practical familiarity with CAA
- ▶ Internally assessed quality managed project processes

Our combined experience within the industry management and regulatory fields provides us with a range of skills ideally suited to efficiently manage approval processes. More than a decade of regulatory approval experience and ongoing exposure to world-wide industry best-practice helps us to establish efficient and safe practices in the most cost effective manner.
