			<p>TS08 Human Factors in Aircraft Maintenance (Refresher)</p> <p>TR57 EASA Part M – Refresher Training</p> <p>TS53 Measuring the Performance of your Safety Management System (SMS) In-company only</p> <p>TR63 Part 145 – Continuation Training for European Repair Stations</p> <p>TR67 EASA Part 145 – Continuation Training</p>

All our courses are graded to help structure your training and development programme.

Foundation Level Training (F) - Suitable for those with little or no prior knowledge of the subject who are looking to develop a fundamental level of understanding, competency and knowledge.

Practitioner Level Training (P) - Suitable for those who have worked in the subject for some time, are familiar with core terminologies and concepts and are looking to develop or update their level of knowledge and practical understanding.

Advanced / Continuation Level Training (A) - Suitable for those with significant relevant experience in the subject matter who are looking to enhance their specialist skills and knowledge and keep abreast of latest regulatory and technical developments.

Advanced level training also applies to our Recurrent and Refresher training programmes as well as to courses that we recommend are taken in a chronological order.
